

COMPANY

PROFILE **2026**

History & philosophy

PM Engineering Pvt Ltd, established in April 2008, has grown into a leading engineering and construction solutions provider in the Maldives. Over the years, the company has built a strong reputation for delivering complex and high-value projects with precision, reliability, and technical excellence.

With a solid foundation in engineering and project execution, PM Engineering Pvt Ltd has continuously expanded its capabilities beyond conventional contracting. The company now provides comprehensive design-build solutions, project management services, metal engineering, fabrication, and a wide range of specialized engineering works across multiple sectors.

Headquartered in K. Thilafushi, the industrial hub of the Maldives, PM Engineering Pvt Ltd operates with a strong commitment to quality, safety, and innovation. Our experienced team, modern fabrication facilities, and practical engineering expertise enable us to undertake demanding projects and deliver solutions that meet international standards.

Driven by a vision of engineering excellence and long-term partnerships, PM Engineering Pvt Ltd continues to play a vital role in supporting infrastructure development and industrial progress throughout the Maldives

Catalogue

At PM Engineering, we specialize in the design, fabrication, and construction of a diverse range of industrial solutions. Our expertise lies in crafting high-quality metal structures and storage solutions tailored to meet your specific needs. Explore our specialized offerings

Horizontal Fuel Storage Tanks

Robust and efficient horizontal fuel storage tanks designed for optimal space utilization. Crafted with precision to ensure durability and compliance with industry standards.

Vertical Fuel Storage Tanks

Vertical fuel storage tanks designed for efficient storage in various industrial settings. Engineered to maximize storage capacity while maintaining structural integrity.

Temporary Fuel Storage Tanks

Fuel Tanks for Fuel Trucks

Custom Fuel Tanks

PM Engineering excels in the design, fabrication, and construction of custom fuel tanks.

Our team collaborates with clients to bring their unique specifications to life.

Water Tanks

High-quality water storage solutions crafted to meet diverse industrial and commercial needs. Designed for optimal durability, efficiency, and compliance with water storage standards.

Chemical Tanks

Specialized chemical storage tanks built to withstand the unique requirements of different chemicals. PM Engineering ensures the highest quality and safety standards in our chemical tank designs.

Metal Structures - Warehouse

PM Engineering specializes in the creation of tailor-made metal warehouse structures engineered for optimal efficiency and long-term durability. Our esteemed reputation is built upon the meticulous design and fabrication of metal structures that adhere to the most stringent industry standards. With an unwavering commitment to client satisfaction, we offer comprehensive in-house design and fabrication services, catering to projects of any scale. Trust PM Engineering to deliver bespoke metal solutions tailored precisely to your requirements.

Ship Building – Flat Barge, Landing Craft, Oil Tanker

Our expertise lies in the construction of marine vessels, encompassing a diverse range from flat barges and dumb barges to landing craft and oil tankers. At PM Engineering, we offer comprehensive services, from conceptual design to fabrication and construction. With a commitment to excellence, we deliver bespoke solutions tailored to meet the specific needs of each project. Trust us to bring your marine vessel vision to life with precision and professionalism.

Our Approach to Project Management and Execution

PM Engineering adheres to a robust project management and execution philosophy:

Detailed Planning: We craft meticulous schedules and resource plans.

Clear Communication: Transparency is maintained with all project stakeholders.

Progress Tracking: Close monitoring of project progress ensures efficiency.

Quality Supervision: Stringent quality control is a priority.

Timely Completion: A focus on completing and commissioning projects on schedule.

As an employee-owned company, PM Engineering goes beyond conventional standards on every project, delivering on promises with unwavering integrity. Our team, comprised of experienced and qualified individuals, takes pride in ensuring client satisfaction.

Mission

At PM Engineering, our mission is to be the premier provider of comprehensive tank solutions, specializing in fuel storage while extending our expertise to water tanks, chemical storage, and a spectrum of metal works such as warehouse construction. We are dedicated to securing projects at competitive pricing, fostering a safe working environment, delivering active and value-added services to our customers, and consistently achieving quality work within realistic timeframes.

Values

Safety First: We prioritize the safety of our projects, ensuring that every aspect of our work meets the highest safety standards.

Customer-Centric: Our success is deeply connected to our customer's success. We strive to understand and meet their unique needs, fostering long-term partnerships.

Integrity: Upholding the highest ethical standards, we treat all stakeholders with respect, honesty, and transparency.

Exceeding Expectations: We are committed to going above and beyond, consistently striving to exceed the expectations of our clients in every project.

Quality without Compromise: Our dedication to delivering uncompromised quality is ingrained in every aspect of our work.

Vision

PM Engineering envisions itself as a respected leader, setting the benchmark for service quality and demonstrating an unwavering commitment to excellence in the expansive field of metal engineering, with a particular focus on tank solutions.

Culture

Our culture revolves around a customer-centric approach, placing the satisfaction of our clients at the forefront of all our operations. We prioritize efficiency, innovation, and a collaborative spirit in every aspect of our work.

Safety, Health, and Environmental Management

Aligned with a zero-harm philosophy, our commitment to safety extends beyond our projects to encompass the health and environmental well-being of people, host communities, and the environment. This commitment is evident in our specialized expertise in tank solutions, where precision and care are paramount.

Our projects

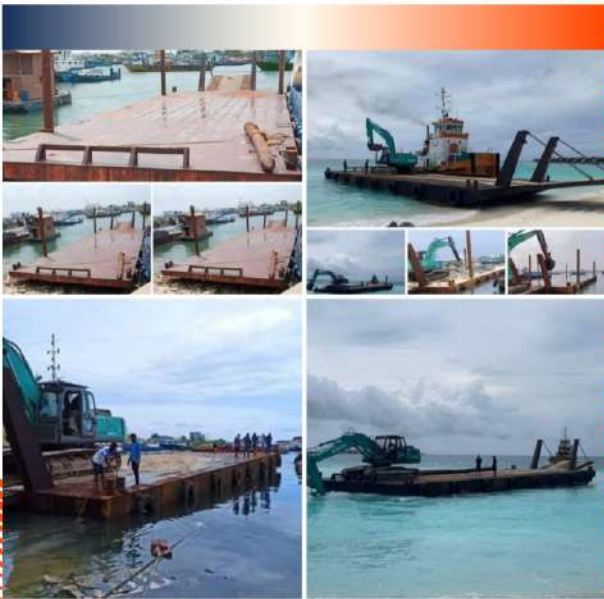

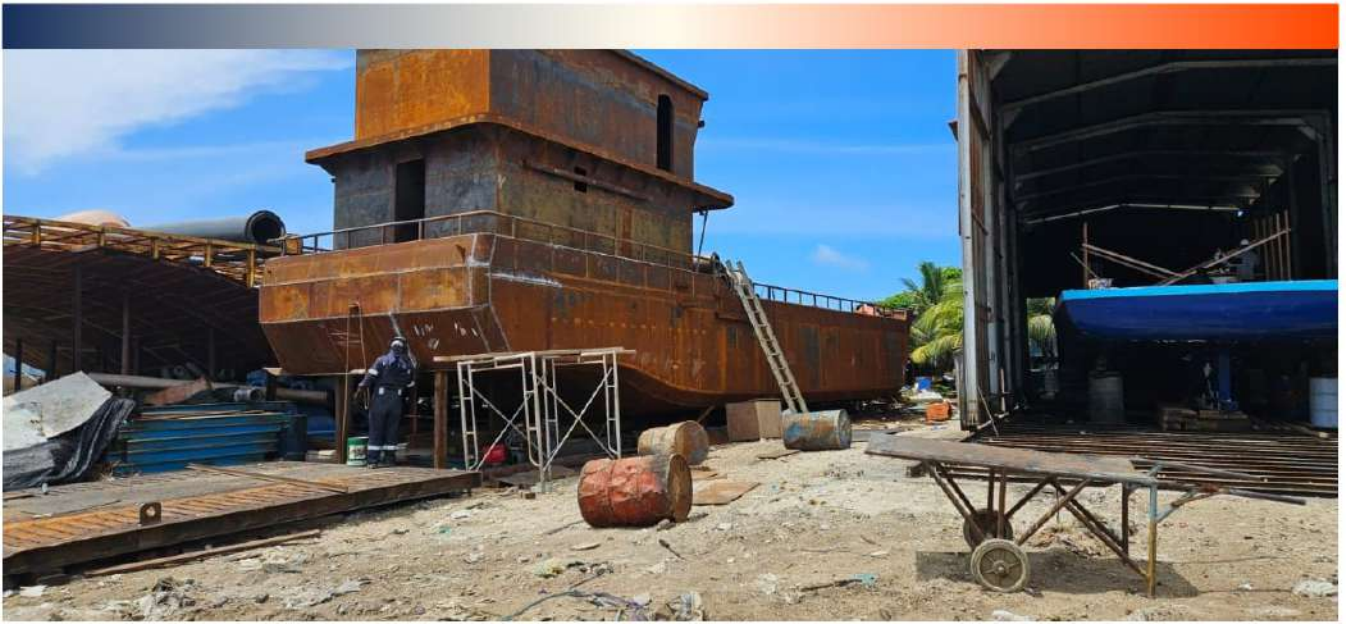

Magoodhoo fuel storage tank 60,000litrs

Madifushi island resort 100,000litrs tank

Fari island 100,000litr x2 tank

Fari island staff island tank 10,000litrs petrol tank
